STUDENT OUTREACH & SUPPORT (SOS) REFERRAL SYSTEM

Student Outreach & Support (SOS) Referral Process

The Student Outreach & Support (SOS) referral is a process to submit information about a student who may be experiencing a challenging situation and needs help to connect to the appropriate resources. Each referral is reviewed and then assigned to a Case Manager to outreach to the student and develop a support plan. This referral activates the appropriate University protocol to support both the individual and the campus community in maintaining their safety, health, and well-being.

Please refer to our page on how to recognize and support student in distress for examples of indicators of concerning behavior. Please also always error on the side of submitting a referral. It is important for our students and campus community that we receive this information in a timely manner.

Additional signs include:

- Difficulties with family/home environment
- Difficulties with food security and housing
- Difficulties adjusting to the college experience
- Financial Concerns
- Relationship Concerns
- Student being unresponsive to multiple outreaches
- Witness to an accident

If you know of a student who is experiencing a challenging time, we encourage you to submit a SOS referral through the online referral system.

A note about privacy:
As a part of this process, we work very hard to maintain privacy for students so they trust the work we’re doing. As a result, if you submit a referral, we do not generally report back or communicate with you about the details of how we’ll be working with individual students.

A SOS referral is not for emergencies. If there is an immediate threat to a student (either through self-harm or interpersonal violence) or the community, please call Campus Safety at 303-871-3000, or if dialing from a campus phone, 1-3000.

If you have a concern about our referral process, please email sos@du.edu
