CAMPUS WEATHER CLOSURES

Sometimes severe storms may create such a hazard that the University makes a decision to close and cancel operations for a period of time. Students can receive information about campus weather closures by registering for the Critical Incident Notification System (http://bulletin.du.edu/graduate/academic-requirements-policies-and-procedures/class-attendance/campus-weather-closures/graduate/general-information/critical-notification-system). The University of Denver homepage will also be updated to reflect a closure due to severe weather.
