PROVISIONAL ADMISSION

Students admitted with some deficiency in undergraduate training or incomplete credentials are admitted with provisions. Students may be accepted with provisions on a case-by-case basis. Students admitted with deficiencies in training (requiring coursework prerequisites) and/or incomplete credentials (still pursuing a baccalaureate degree) must complete requirements prior to matriculation. Those admitted with provisions must provide official documentation (e.g. official, final transcripts, proof of degree completion) no later than the sixth week of the first quarter of enrollment or a hold will be placed prohibiting registration.

Note: Some academic units may have more restrictive timelines for satisfying provisions. Contact the unit for details.
