Course Information

Enrollment in any course implies the permission of the instructor and the department. Courses are subject to the prerequisites identified in the course description unless the instructor approves appropriate equivalent experience or study.

Graduate courses to be applied in a cognate area are subject to the approval of the major department or program.

In general, an appropriate undergraduate major as determined by the graduate program must precede a graduate major or program.

Course Number Designation

Graduate credit cannot be earned in courses numbered below 3000.

Not all 3000-level courses may be offered for graduate credit. Students should consult the course description in their unit, program, and course schedule prior to enrolling in any 3000-level course to verify it is listed at the graduate level and may count as credit for the graduate degree. 3000-level courses that are not designated as graduate level are not approved to count toward graduate degrees.

The course number consists of a three or four letter subject code that identifies the academic unit offering the course, followed by four numbers that indicate the level of the course.

Schedule Type

Independent Study

Independent study provides opportunities for the capable student to do special work under individual supervision in areas not covered by class offerings.

Projects must be undertaken within the academic term in which they are registered. Independent study may not be taken instead of, or to modify, a regular course offered by a department. In addition, independent study cannot be used to account for study taken at another university or at the undergraduate level. The study must be conducted with DU faculty at the graduate level.

The department may limit the maximum number of Independent Study credit hours a student may apply towards their degree.

The students should demonstrate qualities necessary for interested and intensive inquiry. The student, with the approval of the instructor and department concerned, must agree upon the topic and outline.

Graduate students must obtain applications for independent study projects from the Office of the Registrar (http://www.du.edu/registrar). Partial applications will not be processed and registration after published registration dates is not permitted. To be eligible for independent study, the student must be in academic good standing (i.e., 3.0 GPA for graduate students). Independent studies must be at least one credit hour and generally not to exceed five hours. Independent study projects appear on the student’s transcript with the specific topic as the course title and academic grades (A-F) are assigned.

The responsibilities of the instructor of record are to establish specific requirements for the course of study, see that the grades are submitted, approve the credentials of other faculty involved and agree to assume responsibility if problems arise.

Independent Research

Independent research opportunities are available to students primarily for thesis and dissertation research or other independent research. The department may limit the maximum number of Independent Research credit hours a student may apply towards the degree.

Projects must be undertaken within the academic term in which they are registered and registration after published registration dates is not permitted.

Students obtain applications from their academic department. Incomplete or partial applications will not be processed. Upon successful completion of the project or on its termination by request of the department, the research advisor will record a final grade. The department may use the A-F grading system in evaluating the research or record “P” (pass) or “F” (fail) for the course.

The responsibilities of the instructor of record are to establish specific requirements for the course of study, see that the grades are submitted, approve the credentials of other faculty involved and agree to assume responsibility if problems arise.
**Directed Study**

A directed study course is a permanent catalog course delivered on an individual basis when the course is not offered that term. Directed studies are approved under extenuating circumstances to provide an opportunity to complete a required course.

Directed studies use the same forms and processes as independent studies. Partial applications will not be processed. Directed study courses appear on the student’s transcript with the specific course title and must be approved by the instructor and department concerned. There can be no change in the basic content of the course. In particular, this means the level, subject code, description, title, grading policy (A-F, P/NP), credits and course content cannot differ from the permanent course. Projects must be undertaken within the academic term in which they are registered. Registration after published registration dates is not permitted.

The responsibilities of the instructor of record are to establish specific requirements for the course of study, see that the grades are submitted, approve the credentials of other faculty involved, and agree to assume responsibility if problems arise.

**Courses for No Credit**

A student may register for no credit (NC) in any course with approval of the course instructor and only where space is available. A no credit registration cannot be changed to a credit registration after the deadline for registration has passed. Furthermore, a student enrolled for credit cannot change to no credit after the end of the sixth week of the quarter. Such courses count as full credit value in determining the total study load allowed. Courses taken on a no credit basis do not apply as part of the minimum credit-hour requirements for any graduate degree. The tuition charge for no credit courses is the same as for credit courses.

If adding the no-credit course creates a course overload, it requires approval from the instructor, advisor and dean of the unit.

No credit courses are listed on the student’s permanent record with a grade of No Credit (NC). Students receiving any type of financial aid, scholarship, grants or tuition waiver should check with the Office of Financial Aid (http://www.du.edu/registrar) before registering for NC as financial aid or waiver may not cover courses taken for no credit.

**Note:** Some units may have more stringent policies regarding no credit courses. Students should consult their registration office for information.

**Auditing Classes**

Auditing privileges are extended only to full-time students who have approval of the course instructor and only where space is available. Students do not officially register for courses that are being audited; therefore, no tuition is charged and no record of the course is made. Students enrolled in a course may change to audit only if the course is dropped within the first seven days of the term.

**Note:** Auditing privileges are not available for Daniels College of Business, Graduate School of Professional Psychology or University College courses.

**Graduate Courses for Undergraduate Credit (Credit Counted Toward Bachelor’s Degree)**

With the approval of the chair of the department or the dean of the college or school, undergraduate students may request to take a graduate course for undergraduate credit.

Graduate courses taken for undergraduate credit may not be used again for credit upon enrollment in University of Denver graduate programs. Students should consult the college, school, or department before enrolling.

Forms (http://www.du.edu/studentlife/advising/media/documents/graduate-credit.pdf) are available in the Center for Academic and Career Development (http://www.du.edu/studentlife/advising/policies-forms). The request must be approved and filed in the Office of the Registrar (http://www.du.edu/registrar) before the student registers for the graduate course and registration must be completed before the deadline of the last day for registration with credit.

**Graduate Credit for Undergraduate Students (Credit Counted Toward Graduate Degree)**

With the approval of the chair of the department or the dean of the college or school, undergraduate students who are within ten credit hours of the number required for graduation and who have fulfilled all specific degree requirements may receive graduate credit for a maximum of ten credit hours of 3000- and 4000-level courses taken in excess of graduation requirements.

Forms (http://www.du.edu/studentlife/advising/media/documents/graduate-credit.pdf) are available in the Center for Academic and Career Development (http://www.du.edu/studentlife/advising/policies-forms). The request must be approved and filed in the Registrar’s office before the student registers for the graduate course. Registration must be completed before the deadline of the last day for registration with credit.
