

COLLEGE OF NATURAL SCIENCES AND MATHEMATICS

The College of Natural Sciences & Mathematics offers graduate students opportunities to collaborate with faculty scholars to apply new knowledge and research that changes lives and challenges entrenched ideas. We offer access to resources such as innovative geospatial software, high resolution fluorescence imaging systems, and electron paramagnetic resonance—amongst much more. From the mystery of a blinking binary star system to the movement of a molecule inside a cell, the College of Natural Sciences & Mathematics offers the expertise and resources to support your investigative journey.
